

ADVANCED PRACTICE PROVIDER (APP) PHYSICIAN ASSISTANT OR NURSE PRACTITIONER CAREER OPPORTUNITY

We are seeking a full-time Physician Assistant or Nurse Practitioner to join the multidisciplinary team at our outpatient clinic in Carmel, Indiana. This position offers a work schedule from Monday to Thursday, 8:00 AM to 6:30 PM, with no after-hours on-call duties required.

The selected candidate will care for patients with chronic pain and related mental health issues and will collaborate with a multi-specialty team, including physicians specializing in chronic pain, psychiatry, neurology, and interventional pain management, as well as other advanced practice providers (APPs), psychologists, and an occupational therapist.

The ideal candidate should be compassionate and capable of both teaching and listening to colleagues from various specialties.

Indiana Polyclinic will provide comprehensive chronic pain management training, integrating medical, mental health, and addiction approaches.

Once trained, key responsibilities include:

- Providing patient pharmacological management with minimal reliance on standard opioids
- Planning and implementing necessary interventional pain procedures
- Managing both internal and external referrals and coordinating care
- Assessing the need for and supervising IV treatments
- Offering additional patient support, such as pharmacogenomics and regenerative medicine (training provided)

Qualified candidates must possess a valid Indiana license to practice and maintain good standing. For more information about our facility, specialties, and provider staff, please visit our website at www.indianapolyclinic.com.

Interested candidates should contact John Wiedelman at 317-428-4177. You may submit your curriculum vitae via email at jwiedelman@indianapolyclinic.com.
