A message from Veronica Vernon

Dear Prospective Fellow,

On behalf of Butler University Pharmacy Practice Faculty and our industry partners, Eli Lilly and Company and Regeneron, thank you for your interest in the Butler University Fellowship Program. We desire to cultivate leaders who are innovative, proactive, and collaborative. Fellows gain valuable experience learning from outstanding faculty and industry leaders during the two years. During the time at Butler, you can expect to engage in meaningful research projects, teach in a variety of didactic and experiential settings, and learn the inner workings of academia. During the industry portion, there is a focus on real-world experiences in pharmacovigilance, medication error reporting, process improvement management, and project management. Fellows receive mentoring from a variety of leaders who focus on their personal and professional development. We hope to provide fellows with translatable skills that allow them to work in a variety of settings and positions post-graduation. We look forward to hearing from you!

Sincerely,

Veronica Vernon, PharmD, BCPS, BCACP, MSCP, FAPhA

Associate Professor and Chair of Pharmacy Practice
Director, Pharmaceutical Fellowship Program
Butler University College of Health Professions
Indianapolis, IN, USA

REGENERON / Lilly

BUTLER
UNIVERSITY

Meet the Fellowship Coordinator

Andrew N. Schmelz, PharmD, BCACP

Associate Professor, Pharmacy Practice
Academic Experience Coordinator,
Pharmaceutical Fellowship Program

As Academic Experience Coordinator for the fellowship program, Andy oversees the academic portion of the fellow experience, working alongside faculty to shape research opportunities, teaching development, and mentorship throughout the first year. He currently serves as Chair of Butler's Faculty Senate, bringing a University-wide perspective on academic leadership and governance to the program. Andy is excited to help fellows build a strong foundation as they transition into their careers in medication safety and pharmacovigilance.

About the Fellowship

The Butler Pharmaceutical Fellowship Program is a two-year multi-site fellowship offering learning experiences across academia, industry, and regulatory agencies. All three learning experiences are required. Throughout the program, fellows can expect to engage in various meaningful professional development opportunities, including completion of a teaching certification and conducting

independent research projects, while furthering their understanding of patient and medication safety.

About Butler

Located in Indianapolis, Indiana, Butler University is a nationally recognized university with seven academic colleges. In 2026, Butler was ranked the top regional university in the Midwest and Most Innovative School among Midwest Regional universities by U.S. News & World Report. At the Butler University College of Health Professions, you will find a community of health professionals committed to excellence. Our

programs prepare students and post-graduate learners to become leaders in their chosen fields. Butler University College of Health Professions has a variety of post-graduate residencies and fellowships, each designed to strengthen not only the professionals' specialty expertise, but also enhance teaching abilities in the classroom through faculty direction and mentorship.

About Eli Lilly and Company

For 150 years, Lilly has developed and delivered trusted medicines to more than 71 million people around the world. Their growing portfolio of medicines includes treatments in the areas of cancer, diabetes, endocrinology, immunology, neuroscience, obesity and more. Lilly's Global Patient Safety organization, consisting of more than 300 physicians, pharmacists, nurses and other health care professionals, is dedicated to the collection, monitoring, evaluation and reporting of

safety information through the science of pharmacovigilance.

About Regeneron

Regeneron is a leading biotechnology company that invents, develops and commercializes life-transforming medicines for people with serious diseases. Founded and led by physician-scientists, our unique ability to repeatedly and consistently translate science into medicine has led to numerous approved treatments and product candidates in development, almost all of which were homegrown in our laboratories. Regeneron's medicines and

pipeline are designed to help patients with eye diseases, allergic and inflammatory diseases, cancer, cardiovascular and metabolic diseases, neurological diseases, hematologic conditions, infectious diseases and rare diseases.

Two-Year Programs

Global Patient Safety and Pharmacovigilance

Actively Recruiting:
One Fellow for 2027-2029

Program Timeline

ACADEMIA

The fellow will gain experience in academia by being given the opportunity to publish original research, deliver presentations, and teach. The fellow will also have an opportunity to complete a teaching certificate and leadership program.

LOCATION: Indianapolis, IN

INDUSTRY

The fellow will have opportunities to work cross-functionally on pre-and post-marketed compounds to assess and evaluate adverse events in the context of biological plausibility, indication for use, concomitant medications, and comorbid conditions to determine if the adverse events are drug-related. Fellows will actively participate in various aspects of pharmaceutical innovation, use optimization, and global safety.

LOCATION: Indianapolis, IN

Eli Lilly and Company Second Year Fellow:

"This unique fellowship program offers the opportunity to grow professionally across various areas of medication safety, each contributing to a comprehensive foundation. Gaining expertise across multiple domains will strengthen my ability to become a well-rounded leader who is equipped to make meaningful contributions in any area of pharmacovigilance I choose to pursue. I'm excited to deepen my knowledge in each focus area and to collaborate with distinguished leaders whose mentorship will help me thrive both personally and professionally."

-Caroline Rahrig, PharmD

Eli Lilly and Company First Year Fellow:

"This fellowship program offers a strong foundation in pharmacovigilance, built through academic training at Butler University and hands-on experience at Lilly and the FDA. Each setting brings a different perspective, together providing a well-rounded view of the industry. What draws me most to this fellowship is the chance to gain the skills needed to strengthen patient safety on a global scale, and to do so alongside mentors whose guidance will shape both my career and my growth as an industry professional."

-Komal Kumar, PharmD, MBA, BS

Global Patient Safety and Regulatory

Actively Recruiting:
One Fellow for 2027-2029

Program Timeline

ACADEMIA

The fellow will gain experience in academia by being given the opportunity to publish original research, deliver presentations and teach. The fellow will also have an opportunity to complete a teaching certificate and leadership program.

LOCATION: Indianapolis, IN

INDUSTRY

The Regeneron fellowship offers a unique opportunity to gain diverse experiences across several key functions within a leading biotechnology company. While developing expertise in patient safety and risk management, the fellow will also contribute to cross-functional initiatives in Regulatory Affairs and Trademark Naming. Working on products across multiple therapeutic areas and stages of development provides broad exposure to the drug development process and fosters a comprehensive understanding of the pharmaceutical industry that will prepare the fellow for a range of future career options.

Location: Tarrytown, NY

Regeneron First Year Fellow:

"This fellowship program offers the unique opportunity to explore the impact and role of medication safety in a variety of traditional and non-traditional settings, furthering my understanding of pharmacy and pharmacovigilance within industry and academia. Through this program, I have engaged with a variety of interprofessional disciplines and interacted with experts across different functional areas. I look forward to applying my skills meaningfully and continuing my professional journey."

-Ayla Danabasoglu, PharmD, MSHIA

Application Process

Eligibility

To be considered for the Butler University Fellowship Program, you must meet the following requirements:

- Graduate of an Accredited Council for Pharmacy Education (ACPE)—accredited Doctor of Pharmacy program prior to the start of the fellowship term.
- Have a strong interest in pursuing a career in medication safety
- Citizen of the United States

Application Procedure

The Butler University Fellowship portal will open on **September 28, 2026**. Applicants must upload the following application materials to the online portal no later than **October 30, 2026**:

- Letter of Intent
- Curriculum Vitae
- Official college transcripts. Unofficial college transcripts can be used as a placeholder.
- Two letters of recommendation emailed to rxfellowships@butler.edu

All application materials will be reviewed on a rolling basis.

Interviews

The fellowship program will conduct virtual interviews on a rolling basis and will conclude interviews at the end of November. Candidates will be notified if selected for an interview.

Fellowship benefits:

- Competitive stipend
- Reimbursement for relocation during fellowship and professional travel expenses
- Enrollment in Indiana Pharmacy Teaching Certificate (IPTeC) Program
- Vacation and University Holidays
- Optional Butler University benefits package (health, Rx, vision, and dental)

BUTLER
UNIVERSITY

Do I need previous industry experience in order to be considered for the fellowship program?

- No, previous industry experience is not required.

Is licensure required for this fellowship?

- Yes, licensure must be obtained after the program begins, within the specified timeframe. However, there are no restrictions regarding the state in which the license is held.

Can I apply for more than one fellowship at Butler University?

- Yes, we welcome applicants to apply to explore all of the opportunities available at Butler University.

What is the timeline for the fellowship selection process?

- The Butler University application portal will open up on Monday, September 28th, 2026. Applicants must upload their letter of intent, CV, official transcripts, and two letters of recommendation. Letters of recommendation must be emailed to rxfellows@butler.edu.
- The application materials listed above must be received by Friday, October 30th, 2026; however, applications will be accepted and reviewed prior to the due date. Due to the competitive nature of the selection process, applicants are encouraged to submit their application materials as soon as possible.

To whom do I make out the letter of recommendation?

- Please address all letters of recommendation to the fellowship program director:

Veronica Vernon, PharmD, BCPS, BCACP, MSCP, FAPhA
Associate Professor and Chair of Pharmacy Practice
Butler University College of Health Professions
Indianapolis, IN, USA

Is the FDA experience still a part of this program?

- As with the academic and industry portions of the program, the fellow is expected to complete the FDA rotation. At this time, we are still awaiting updates from our partners at the FDA. We will share additional details throughout the interview process.

For any other questions, please contact rxfellows@butler.edu
